PROFESSIONAL EXPERIENCE

NAKUPUNA COMPANIES (Arlington, VA)
Software Developer II
Contractor, 40 hours per week   Aug 2024 – Nov 2025
Applying an Agile software development methodology to build the Army Military Payroll (AMP) solution; part of the Integrated Personnel and Pay System application. Using Oracle Peoplesoft tools and SQL to develop AMP features.

- Developing payroll features for the Integrated Personnel and Pay System, servicing over 1.1 million Active Duty/Reserve soldiers

DEFENSE INFORMATION SYSTEMS AGENCY (Fort Meade, MD)
Computer Scientist | Software Developer Role
GS-13, 40 hours per week   2010 – 2024
Maintained the organization's Customer Support Portal and engaged with stakeholders to improve the application. Champion of several initiatives, including Microsoft Power platform development, SharePoint site management, and Power BI report management. Drafted business intelligence (BI) reports for technical leaders and site owners. Produced test plans, reported bugs, tracked issues, ran functional tests on software releases, and provided customer support.

- Over 5 years of Java experience. Used SQL and Java Business Intelligence library to provide BI reporting features for application owners, and used a JavaScript library to develop widgets for network performance users
- Built and delivered 5 Power BI reports for DISA customers, in 6 months, to monitor mission critical devices across DISA's cloud network in 2023. Delivered updates to those reports in 2023-2024, resulting in 9 total reports.
- Maintained and updated a Customer Support Portal, running on Microsoft Power Platform, for over 3 years
- Managed organization's 3 SharePoint websites for customers, and maintained site access groups, for over 3 years
- Led a team to collect data to calculate latency across a global DOD network
